Part No. KX-6850-ST

#1

Pulley Alignment

#2

Belt Tensioning

#3

Shaft Alignment

Improve worker performance with this rugged but lightweight multi-functional pulley alignment, belt tensioning, and shaft alignment trainer, all in one package.

SYSTEM OVERVIEW

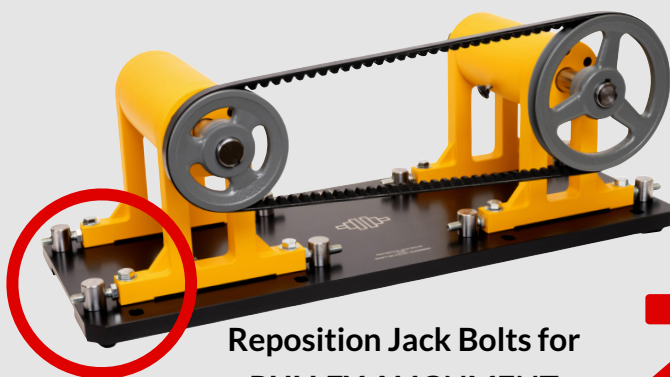

Multi-functional Trainer

The KX-6850-ST is a rugged but lightweight multi-functional pulley alignment, belt tensioning and shaft alignment trainer. It is an exceptional tool for alignment and proper belt tension training. It was developed especially for the needs of the professional instructor.

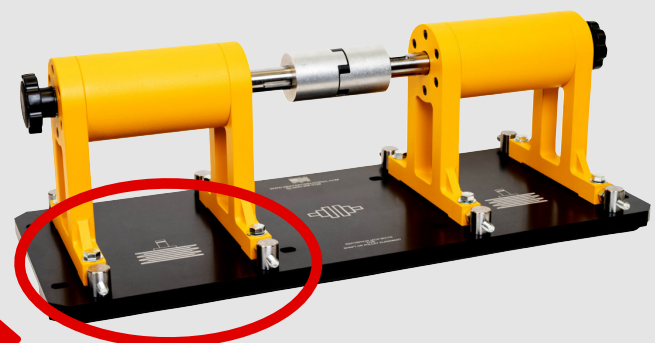

The KX-6850-ST features a strong A-Frame assembly – with a durable powder coat paint finish, a hard black anodized base, laser etched pulley and shaft symbols, 1" diameter 304 stainless steel shafts with precision bearings, jack bolts, rubber feet and locking knurled knobs to keep the shafts from rotating.

HOW DOES THIS MULTI-FUNCTIONAL ALIGNMENT TRAINER WORK?

During your alignment training sessions, simply reposition the towers and jack bolts for your pulley alignment or shaft alignment trainer and you are ready to go.

Reposition Jack Bolts for
PULLEY ALIGNMENT

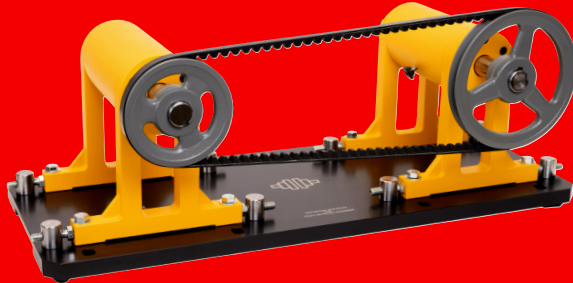

Reposition Jack Bolts for
SHAFT ALIGNMENT

Note: Reposition jack bolts on the base for pulley or shaft alignment training.
